SALE INFORMATION

Sale Date Friday, 21st July

Inspection from 10 am

Auction commences 12:30pm

Prior Inspection

Bulls will be available for inspection a week prior by appointment. On sale day bulls will be held in small paddocks for appraisal.

Catering

Longreach will host refreshments and lunch.

Buyers Registration

Buyers registration will be in use on the day and all prospective purchasers must register at the agent's table prior to commencement of the bidding.

Online Bidding and Phone Link Up

Online bidding through Elite Livestock Auctions will be available. Phone bidding can be conducted on sale day through an agent or representative.

Health

Bulls have completed 7 in 1 and Vibriosis vaccinations. An all purpose drench was given in early July. All bulls have been vet inspected and semen tested.

Delivery and Transport

There will be some trucking available in all directions after the sale and agents will assist. We request that stock be removed within 24 hours unless arrangements are made to hold over at purchaser's risk. All care will be taken.

Accommodation

Accommodation is available in Goulburn and Bowral. We also recommend the local Marulan Motor Inn - call on 02 4841 1330.

Rebates

Agents – 2.5% to outside agents, written notice to be given 24 hours prior to sale.

Disclaimers

All care has been taken in compiling this catalogue, however, responsibility lies with prospective purchasers to determine accuracy.

Safety Disclaimer and Sale Day Safety

While every care is taken to ensure the safety of all persons and property, the vendors, staff and their agents accept no liability for any accidents that may occur at the Longreach bull sale. Although such occurrences are rare, any persons attending the sale do so at their own risk whilst on the property. It is not advisable to take children into the sale pens.

HOW TO REGISTER with ELITE LIVESTOCK AUCTIONS

Welcome to the new age of selling livestock in Australia and "Happy Bidding"

-  Simply go to www.elitelivestockauctions.com.au using your desktop, laptop, iPad, iPhone or android device
-  Click on the "Sign Up" page / link
-  Create a bidding profile using the bidder registration page. (You can either register as a livestock agent, company or private buyer.)
-  Agree to the Elite Livestock Auctions Terms & Conditions and the Selling Agents Sale Terms & Conditions as printed in the official Sale Catalogue
-  Click "Register"
-  You will then be notified by email that an account has been created
-  Once an account has been created you are all "Set to Bid"
-  Each auction can then be viewed by clicking "Live Auction" logo on the Elite Livestock Auctions website
-  Once you receive email notification that your account has been created please go to the sale you wish to bid at and click "Request to Bid"
-  The sale agents will then approve your application to bid and on the sale catalogue you will see "✓ Bid Request Approved"
-  On Sale day simply login, click "Enter Auction" on the catalogue page and you can start bidding. (There is no need for software download)
-  At the completion of the auction, invoicing will be carried out as per your registration details by the Selling Agents.

WELCOME LETTER

Bull Sale 2017

Dear Breeders

We would like to thank previous bull buyers and bidders and extend a warm welcome to all who may attend this year's Bull Sale at "Longreach".

It has been a very solid year for beef producers with consistent demand and high prices, which are flagged to remain at worthwhile levels for some time. How rewarding it has been! And the use of Limousin beef genetics can multiply that profit. Our "carcass breed" continue to make top dollar with their above average meat yield. Demand for Limousin cross cattle is riding high.

Last year we dipped our toes into steer preparation for carcass competition. Longreach Limousins was awarded 1st in class on the hook at Scone Beef Bonanza. Now we have two more young steers awaiting competition.

We are really pleased with the depth and muscle in our bull offering for this year's sale, a very even line. The bulls have spent six months on grass at Roslyn and the last three months on oats here at Longreach. All bulls have been scanned with pleasing results for EMA and intramuscular fat. Tender Limousin definitely on the menu!

We selected the four standout young 2016 bulls for inclusion, otherwise they are all 20 – 26 months old.

This year, we are excited to introduce Elite Livestock Auctions in pre-sale promotion and sale day online bidding. "Can't make the sale?" Elite will broadcast the sale online in real time with live video, live audio and live online bidding. So, you can register with Elite at any time – their details are in this catalogue.

Let us hope for a fine day to gather once again around the fire drum to enjoy our hospitality, old friends and new. The bulls will be close by for your inspection. We look forward to greeting you.

With best wishes

Carolyn Tooth

LIMOUSIN ASSURANCE PROGRAMME

The Longreach Limousin Stud is proud to be a Limousin Assured Herd (LAP).

As part of the program the stud sells only registered Limousin cattle which have been docility scored. We also provide warranties for fertility and docility as follows:

Fertility Warranty

Bulls

All bulls sold as fertile and capable of natural service. The purchaser is to have the right to a full refund of the purchase price of the bull (excluding any costs and expenses of the purchaser) within six months of the date of the sale subject to submitting a veterinarian's report stating that the bull is infertile or incapable of natural service. The veterinarian must also state that in his opinion the bull has not suffered any injury or illness since being sold to the purchaser which could have affected his breeding ability. The veterinary report (together with a statutory declaration by the purchaser to the effect that the substance of the report is believed by the purchaser to be true and correct) must be forwarded to the vendor (with a copy to ALBS) within 14 days of the date being six months after the sale date.

Docility Warranty

All animals are sold as having acceptable docility as defined as score 1, 2 and better than a score of 3 in the official scoring system of the Australian Limousin Breeders' Society. The purchaser is to have the right to a full refund of the purchase price of the animal (excluding any costs and expenses of the purchaser) within 28 days of the date of the sale or a replacement animal of similar quality and price to be supplied by the vendor subject to submitting a veterinarian's report stating that the animal is of unacceptable docility defined as score 4 or 5 in the official scoring system of the Australian Limousin Breeders' Society.

The veterinarian must state that in his opinion the animal has not been mistreated in a way which would have affected its behaviour since being sold to the purchaser. The veterinary report (together with a statutory declaration by the purchaser to the effect that the substance of the report is believed to be true and correct) must be forwarded to the vendor within 14 days of the date being 14 days after the sale date.

UNDERSTANDING EBVs

An *Estimated Breeding Value (EBV)* is an estimate of the genetic merit of that animal for each trait measured. EBVs are provided for the following traits:

Gestation Length EBV ranks sires for the time between conception and the birth of a calf. Shorter gestation is indicated by negative EBVs and longer by positive EBVs.

Birth Weight EBV indicates the genetic potential for birth weight. Positive EBVs indicate higher birth weights and negative EBVs indicate lower birth weights of progeny.

Calving Ease Direct EBVs are estimates of genetic differences in the ability of a sire's calves to be born unassisted from two year old heifers. The EBVs are reported as differences in the percentage of unassisted calvings.

Milk EBV measures the dam's maternal performance and is an important component of fast growth to weaning. A bull with a high milk EBV should produce daughters which milk well.

200, 400 & 600 Day Weight EBVs give us an estimation of the animal's genetic potential for growth to the various ages.

Scrotal Size EBV indicates whether the bull will produce sons with above average or below average scrotal sizes.

Intramuscular Fat (IMF) EBVs are estimates of genetic differences between animals in intramuscular fat (marbling) at the 12/13 rib site in a standard weight steer carcass. IMF EBVs are reported as differences in percentage (%) IMF.

Eye Muscle Area EBVs are estimates of the genetic differences between animals in eye muscle area at 12/13th rib site in a standard weight steer carcass. EMA EBVs are expressed in square centimetres (cm²).

Docility EBV is expressed as the increase or decrease in the percentage of progeny that will be scored as docile (score 1 or 2). Positive EBVs indicate a higher proportion of progeny that will be scored as docile and negative EBVs indicate a lower percentage of progeny being scored as docile.

Comparing EBVs

The EBVs for Limousins cannot be compared with EBVs for animals of other breeds. They should be compared with the current average EBV for the Limousin breed shown below.

Average EBVs For 2015 Born Limousin Calves

Gest	B	Cedir	Milk	200Wt	400Wt	600Wt	Scrotal	IMF%	EMA	Doc
-1.7	+1.6	+0.2	+6	+18	+30	+42	+0.9	-0.1	+1.6	+35

Disclaimer

The EBVs for Limousins cannot be compared with EBVs for animals of other breeds. They should be compared with the current average EBV for the Limousin breed shown above.

Accuracies

Accuracies are presented with each EBV and give an indication of the amount of information that has been used in the calculation of that EBV. The higher the accuracy the lower the likelihood of change in the animal's EBV as more information is analysed for that animal and its relatives.

Lot 1

LONGREACH LUSTY (PF)

Tattoo: BCTPL47
APRICOT

Born: 24/06/2015
POLLED

Grade: Pure

FB%: 95.74

Sire: BIRUBI GALAXY G154 (MATPG154) (PF) (2A)

WULFS GUARDIAN 5074G (IMUPS5074) (P) (B) (PN) (AA)
MANDAYEN GUARDIAN A488 (MDNPA488) (P) (R) (PN) (AA)
MANDAYEN POLLED VERY SPECIAL (MDNPV122) (P) (PF)

CALDERWOOD NO TREMOR (NDMFN1) (PN) (AA)
BIRUBI EVENING SONG E021 (MATPE21) (P) (PF) (2A)

52%	69%	44%	45%	65%	66%	71%	70%	41%	44%	55%

An impressive bodied bull and Ben Hindmarsh's pick. With show ring champions in both sire and dam, Liason combines all the compelling attributes to pass on to his progeny - thick and deep from his well laid in shoulder to tail; great rib eye, hindquarter and testes. He topped the 600 day weights in his age group. As a bonus, he has the versatility of a low birth figure.

A great looking calf, fast on the way to becoming a sire of note. He is balanced, already well muscled, well endowed. Not to be missed.

Purchaser: _____ \$ _____

THE STORY ON SCURS

Some polled cattle have scurs. Scurs are incompletely developed horns that are generally attached to the skin only.

They range in size from tiny-like growths to large protrusions.

Therefore, polled cattle can be smooth-polled or scurred-polled (polled but expressing scurs).

Many breeders have the mistaken idea that scurs represent an error in transmitting the horned characteristic.

That's not the case.

SCURRED CATTLE SHOULD BE CLASSIFIED AS POLLED SINCE THEY DO HAVE A POLLED GENE.

Only polled animals can express the scurred trait.

THANK YOU
